HISTORIC NURSES VISIT
Last Tuesday Year 5 and 6 were privileged to meet nurses Sister Mary Simpson and Sister Alison Frater. They recounted their recent tour of Greece and Turkey with a group which retraced the steps of the ANZAC nurses 100 years ago.

**Nutrition Snippet**

The simplest way
...to make a healthy afternoon tea.

Try these simple ideas for making snacks that will satisfy even the fussiest eater...

- **Home made hot chips**
  Slice potatoes into thin discs, and arrange on a baking tray sprayed lightly with olive oil. Grill until golden, and serve with a small amount of tomato sauce.

- **Bite sized fruit with yoghurt**
  It’s a fact - kids are more likely to eat fruit when it is cut up into small pieces. Try serving some diced fruit with some reduced-fat yoghurt. It’s a winner.

- **Vegie sticks**
  These are so easy to prepare and make a super healthy afternoon tea. Try cutting up some carrot or celery sticks and serving them with hummus.

**SunSmart Snippet**

The simplest way
...to protect your skin

Have you been sunburnt this summer?

Too many Aussies are still getting sunburnt. On a fine summer day, sunburn can occur in as little as 10 minutes and cause permanent damage to your skin.

What you need to know:

- The more often you are burnt, combined with your accumulated lifetime exposure to UV radiation, the higher your risk will be for developing skin cancer.
- You can’t see or feel UV radiation. It is present every day, can be high even if the temperature feels cool and can pass through clouds.

Even though sunburn eventually fades, long term damage to skin cells remains. Even mild sunburn can increase your risk of developing melanoma and skin cancer... so always be sun safe!
